HIGHLIGHTS OF ICS ACTIVITIES DURING JANUARY 1974

1. Middle East Post-Mortem

With the issuance of the Preliminary Post-Mortem Report, covering the intelligence community's performance before the Arab-Israeli War of October 1973, Phase I of this project is complete. Following review of the document by the USIB, copies were distributed to USIB, the NSCIC, key officials of the community, and the President's Foreign Intelligence Advisory Board.

Phase II activities continue. A study on the operations of the intelligence community during periods of crisis is well in hand following a series of interviews held with key officers of the various Watch Offices and the White House Situation Room, covering their activities and operations during the 6-25 October period. On 25 January the USIB was briefed on the concept of the National Family of Products proposal, as amended and focused by lessons drawn from the Mid-East post-mortem effort to date.

2. The DCI's Key Intelligence Questions for FY 1974

The DCI distributed copies of his Key Intelligence Questions for FY 1974 to USIB principals at their meeting on 10 January, and advised that he intends to ask the NSCIC to approve the KIQs
